A complete type family designed for intense editorial use, comfortable-to-read text & elegant display settings. **Calm, serene, classical, ideal for long reading**.

**Borges** A multistyle, versatile type family

### A typeface for Jorge Luis Borges

Inspired by the great *œuvre* of Argentinean writer Jorge Luis Borges, the Borges type family expresses precision, moderation, character, and economy; qualities with which Borges conceived his words; a type that could capture some of the fantastic which was a significant part of his creative world.

The letterforms of Borges are slightly narrow, with a large x-height, short ascenders and descenders, all of which favours its use within newspapers and other space-saving situations. *Borges also gives the text line a subtle horizontal stress, its forms are round & open which makes it more comfortable in long reading. Finally, its flowing cursives provide a harmonic rhythm contrast with the romans.* 

### A versatile family

Borges includes six complete weights of roman, real cursives and their corresponding smallcaps, offering a good stylistic palette for demanding text settings. Borges Titling is a display companion, good for headings, while Borges Open is an elegant engraved set for very special occasions. Finally there is Borges Poema, a spirited, modern chancery aimed at more delicate moments.
